

NordicGreen II

April 27-28, 2010 Palo Alto, CA USA

What is Nordic Green II?

Nordic Green II is a follow up to a very successful conference in 2008 and next spring it will be the place where cutting-edge green tech CEOs from Denmark, Sweden, Iceland, Norway, Finland, Estonia and the United States will build lasting partnerships and develop the next generation of collaborative global energy and climate solutions. The conference will be a unique opportunity for Nordic companies who are seeking customers, partners, investors and other innovators in the US to gain exposure and connect with the VCs, entrepreneurs, researchers, thought leaders and other experts who make up the world class Silicon Valley innovation ecosystem.

This executive event features CEO presentations, green tech exhibitions, start up pitches, cutting edge research and high-level discussion about the most promising emerging green technologies and new entrepreneurial opportunities.

2010 The stars aligning for Cleantech in the US!

“Green” will be the center of the economic recovery in the United States and a political and regulatory framework is being put into place that will fuel rapid expansion. 2010 promises to be a very important year as the economy rebounds, credit and capital begin to flow and the COP15 treaty begins to take effect.

Over many years Nordic companies have developed valuable expertise in green technology which has led to competitive advantages in many areas. However with such a great opportunity lying ahead, competition is intensifying as innovation within the sector accelerates. Nordic Green II is a gateway for Nordic companies looking for opportunity in the US and a place where US innovators can learn about how to be a part of the latest coming out of this world leading region.

Who Participates in Nordic Green?

Hundreds of Cleantech CEOs, opinion leaders, investors, technology officers, utilities, policy-makers, and leading members of the press and blogging community will attend Nordic Green II. Executives attend Nordic Green to identify and debate emerging trends, build high-level relationships and create new business opportunities.

Past attendees and speakers included representatives from Nordic and US companies and organizations such as DONG Energy, Statoil, Risoe National Laboratories, Danfoss, Uponor, Novozymes, SEED Capital, Draper Fisher Jurvetson, SRI, Lightspeed Venture Partners, PG&E, SMUD, California ISO, EPRI, Better Place and many others.

Nordic Green Sponsor Program

Sponsors gain brand exposure and communicate their leadership positions to Nordic Green's attendees through a powerful combination of e-marketing campaigns, print advertising, on-site material distribution and signage, and program exposure.

Exhibit at Nordic Green

Reach the leading CEOs, entrepreneurs, investors, innovators and researchers from Scandinavia and Silicon Valley by showcasing your company with an exhibition at Nordic Green II.

Apply for the Company Showcase Opportunity

Top CEOs will have the opportunity to present their future strategies and business and research partnering objectives in the Nordic Green II CEO Showcase. Start-ups will have the opportunity to pitch a room full of potential investors, commercialization partners and customers.
